TECHNICAL SKILLS

Languages & Libraries

Python SQL Pandas NumPy Matplotlib Seaborn Scikit-learn

Tools & Platforms

Power BI DAX MS Excel Git & GitHub Jupyter

Competencies

Data Cleaning EDA Data Visualization Statistics Hypothesis Testing K-Means RFM

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Communication
- Teamwork
- Attention to Detail
- Time Management

EDUCATION

B.Sc. Information Technology

Vidhyadeep University

2025 – 2028

Data Structures · DBMS · Statistics · Data Warehousing · Business Intelligence · Python Programming · Web Technologies

PROFESSIONAL SUMMARY

Results-oriented Data Analyst with hands-on experience building end-to-end data pipelines — from raw data ingestion and cleaning through to interactive dashboard deployment. Proficient in Python, SQL, Power BI, and Excel, with a solid foundation in statistical analysis, EDA, and business intelligence. Skilled at translating complex datasets into clear, actionable insights for non-technical stakeholders. Actively contributing to open-source analytics projects on GitHub and eager to grow within a data-driven team environment.

PROJECTS

Hardik Pandaya Batting Report Dashboard

Power BI · DAX

- Designed and developed an interactive **Power BI dashboard** to analyze Hardik Pandya's batting performance across **ODI, T20I, and Test formats**..
- Built interactive **donut and year-wise trend charts** to visualize 50s distribution and annual runs across different cricket formats.
- Automated data analysis and reporting through Power BI, enabling **faster performance tracking and data-driven insights**.

EdTech Student Analysis Dashboard

Python · SQL Power BI · DAX

- Conducted comprehensive EDA on a retail dataset using Pandas and Seaborn, uncovering behavioral patterns across 5+ product categories.
- Developed interactive **revenue trend visualizations** to identify yearly growth, peak performance, and revenue decline periods.
- Built category-based navigation for **Attendance, Placement, Dropout, Revenue, Learning Mode, and Region**, enabling efficient exploration of student analytics.

CERTIFICATIONS & ACHIEVEMENTS

- ✓ Completed hands-on projects in Data Analysis and Visualization using Python and Power BI, producing deployable dashboards and documented notebooks.
- ✓ Built end-to-end data pipelines spanning raw data acquisition, cleaning, EDA, statistical modeling, and interactive dashboard delivery.
- ✓ Active GitHub contributor with public repositories covering data analytics, exploratory analysis, and machine learning workflows.
